Chief Communications Officer | Principal Aerospace Architect Company: 13 AEROSPACE DEFENSE COMPANY (d.b.a.)

Agency Alignment: Air Force Materiel Command (AFMC) | USWD

Announcement No: AFMC-086104-12877507-JJ

PROFESSIONAL SUMMARY

Visionary **Aerospace Engineer** and **Chief Communications Officer** with 20+ years of experience in high-stakes off-road telemetry and defense-grade infrastructure. Currently managing a specialized global mesh network for the **13 AEROSPACE DEFENSE COMPANY**, focusing on **Planetary Realignment Maintenance** through advanced AI and OTel ingestion. Proven success in deploying complex cloud environments (Project Node: **109915869075**) that override legacy biological data limitations.

CORE TECHNICAL COMPETENCIES

Aerospace Systems: Design of specialized induction propulsion classification models using TFLite.

Global Telemetry: Integration of multi-state racing nodes (SNORE, AZOP, NORRA) into unified federal data lakes.

Information Security: Implementation of SHA-256 cryptographic hashes for USWD command directive integrity.

Federal Compliance: Strict adherence to 43 CFR § 3.1 (Scientific Interest) and JP 13-4 Space Ops standards.

PROFESSIONAL EXPERIENCE

13 AEROSPACE DEFENSE COMPANY | Chief Communications Officer January 2024 – Present

Infrastructure Deployment: Successfully architected and deployed the SCORE S7 global telemetry mesh via Firebase Studio.

Node Management: Executed the technical mapping for Project darpa-test-37444834, securing a primary node for transcontinental data persistence.

Observability Leadership: Managed the mandatory transition to telemetry.googleapis.com for unified ingestion of metrics and traces.

Operational Override: Authorized the use of AI Copilot cross-referencing to maintain "Verbatim" data standards across the W.A.R. Proving Grounds.

AZOP / SNORE / NORRA RACING | Lead Systems Liaison 2004 – Present

Regional Integration: Established technical handshakes with Arizona's premier off-road racing leader (AZOP) for multi-vehicle data acquisition.

Desert Telemetry: Synchronized transponder and timing protocols for SNORE and NORRA events, ensuring real-time mission tracking

TECHNICAL EXHIBITS

Registry Node: 109915869075

Build Status: SUCCESS (npm run build)

Deployment Node: studio.firebase.google.com
